# SECURITY

At Northeast Family Federal Credit Union, your security and privacy are of the utmost importance to us. That's why we've employed the latest technology to ensure your transactions with Northeast Family Federal Credit Union are fully secure.

## Is Audio 24 Safe?

Yes. A Personal Identification Number (PIN), birth-date and account number are needed to access your accounts. Your PIN is known only to you. We do not retain any record of it. Checks cannot be made payable to another person or sent to an address different than the one we have on file.

The Secure Sockets Layer feature encrypts your messages over the Internet. In fact, most Internet browsers display a key or padlock icon at the bottom of the browser window when SSL is in use. Please be sure the key or padlock icon shows that SSL is in use during your CU Online Transactions. SSL is available with Internet Explorer, Firefox, Google Chrome, and Safari.

## Is CU Online Safe?

Yes. Northeast Family Federal Credit Union's *CU Online* is secured with separate items to provide safe transactions:

- Secure Sockets Layer (SSL)
- Personal Identification Number (PIN)
- Server Authentication through Public Key Cryptography
- One Time passcode
- Multifactor Authentication

Your Personal Identification Number (PIN) and Server Authentication through Public Key Cryptography provide further assurances of secure access.
